NOTIFICATION OF TRANSMITTAL OF INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Rule 71.1)

Date of mailing

(day/month/year)

10 OCTOBER 2005 (10.10.2005)

Applicant's or agent's file reference P03P8047/PCT

IMPORTANT NOTIFICATION

International application No.

International filing date (day/month/year)

Priority date (day/months/year)

PCT/KR2003/002436

12 NOVEMBER 2003 (12.11.2003)

13 JUNE 2003 (13.06.2003)

Applicant

ACE TECHNOLOGY et al

- 1. The applicant is hereby notified that International Preliminary Examining Authority transmits here with the international preliminary examination report and its annexes, if any, established on the international application.
- 2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
- 3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report(but not of any annexes) and will transmit such translation to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected office by performing certain acts (filing translations and paying national fees) within 30 month(s) from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details in the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

INTERNATIONAL PRELIMINARY EXAMINATION

International application No. PCT/KR2003/002436

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1.	Statement	٠		
	Novelty (N)	Claims	1-14	YES
		Claims	None'	NO
	Inventive step (IS)	Claims	1-14	YES
		Claims	None	NO
	Industrial applicability (IA)	Claims	1-14 .	YES
	•	Claims	None	NO
	Industrial applicability (IA)			

2. Citations and explanations (Rule 70.7)

The following documents mainly referred to these preliminary examination report:

D1: KR 2002-0022490 A (27 Mar 2002) D2: JP 11136020 A (21 May 1999)

1. Novelty and Inventive step

The present invention relates to a built-in antenna having center feeding structure for wireless terminal. Characteristics of claim 1~2 of this invention is that the feeding means is located on the point of ranging from a midpoint of the antenna.

D1 describes a built-in signal band antenna implementing apparatus of mobile communication terminal. Figure 10 of D1 shows that the feeding line(or impedance matching circuit 908) of meander line antenna(900) is centered on the mobile communication terminal. Only the technical problem of both inventions is different.

D2 is related to a built-in antenna for portable radio equipment. Figure 8~14 of D2 shows that input and output line is in the middle of loop antenna(2). But the purpose of D2 is different from present invention.

Therefore Both D1 and D2 have similar figure but are different in the technical problem and the purpose of invention. So all claims of this invention are considered to have novelty, inventive step, and industrial applicability.

2. Industrial applicability

Claims 1-14 meet the criteria of PCT Article 33(4) because it can be used in mobile communication industry.
